****Summary****

Highly motivated and skilled sophomore seeking a Data Analyst Internship to leverage my academic foundation and practical experience in cybersecurity and data analysis.

****Education****

* ****B.Tech in Cybersecurity****, Shiv Nadar University, Chennai (2027)

* CGPA: 8.54

* ****B.S. in Data Science and Applications**** (Online), IITM (2027)

* CGPA: 6.67

****Relevant Coursework****

* Data Analytics

* Statistical Modeling

* Machine Learning

* Databases and Data Warehousing

* Programming Languages: C, C++, Python, Java

* Introduction to Cybersecurity

* Classical and Modern Cryptography

****Skills****

- * Data Analysis and Visualization
- * Statistical Modeling
- * Machine Learning Algorithms
- * Python, C++, Java
- * Data Management (SQL, NoSQL)
- * Cloud Computing (AWS, Azure)
- * Cybersecurity Fundamentals

****Projects****

- * ****Data Analytics Project:**** Developed an algorithm for customer churn prediction using machine learning techniques, achieving an accuracy of 85%.
